Albert Dugan, conductor of car No. 403, was deeply cut on the hips and the rest of his body was bruised.

Henry Jackson, who was cut on the leg, was the only one of the injured to be taken to the city soon after the collision. He went to his home, at 502 Massachusetts avenue, in a carriage. Others might have been moved had the physicians wished it, for there was no lack of aid volunteered by citizens of Broad Ripple. The news of the collision spread rapidly through the town, and soon there was a crowd around Dr. Light's home, eager for information of the condition of the injured.

Messrs. Peck, Elliott and Bruce, of the Indianapolis Street Rallway Company, were notified of the collision and went to Dr. Light's house from the city. There they were met by Superintendent Heady. of the Broad Ripple line, and he explained to them the cause of the collision as he had been able to learn it. WASHINGTON, June 28. - General Horace Porter, United States ambassador to France, who was on the staff of General Grant during the civil war, has just been awarded a congressional medal of honor for distinguished gallantry at the battle of Chickamagua, Sept. 20, 1863, while chief ordnance officer of the Department of Cumberland, and volunteer aid to General Rosecrans. It was just about noon that Captain Lindsay summoned the crew on the forecastle, the whole company of passengers following. "God Save the King" was sung, and afterwards three cheers for the United States was given with a will. A series of games and a dinner had been planned for the remainder of the day, but just then the steamship Ivernia from Boston was sighted. It was seen that the Ivernia had run out a string of flag signals which read 'King ill. Festivities postponed." This put an end to the Jay's er joyment, and, instead, a prayer was offered in the main saloon for the monarch's speedy recovery.

#### He Desires to Know What Becomes of Posies from Government Gardens.

WASHINGTON, June 28 .- Representative Bell, of Colorado, to-day introduced the following resolution of inquiry:

"Whereas, for many years prior to the Fifty-seventh Congress the secretary of war has, through the superintendent of public buildings and grounds, furnished the executive mansion with cut flowers and has distributed weekly a large surplus from the government gardens among the families of the legislative department of the government, but during the Fifty-seventh Congress no such surplus has been distributed;

"Resolved, That the secretary of war be respectfully requested to furnish Congress with a full statement of the expenses of cultivating and caring for said gardens during the present year, how the product compares with the year 1901, and to whom and under what law or regulation the product of said gardens was distributed, except in the executive mansion; if there has been a surplus since Dec. 1, then what disposi-tion was made of the same; if no surplus, then the reason for the failure. Why has the custom of distributing among the families of the legislative department ceased?'

## Figures as to Height and Weight of Carey and His Four Sons.

St. Louis Republic The citizens of San Jose, Cal., are proud of the Carey family. They form the tallest group of men in the State, perhaps in a number of States. The combined height of the father and four sons aggregates thirty-one feet, and each of the four sons weights over two hundred pounds. the total weight of the five is 1,055 pounds -about half a ton. They are all hearty, fine-looking men, and as strong as oxen. Patrick William Carey is a gentleman who, twenty-six years ago, came straight from Ireland, and is proud of the fact. As a boy he was a famous jockey, but, as he says: "'Twas being too tall at last that privinted me from makin' a very rapid forchune. Shure, I grew too tall to ride at all.' For sixteen years he lived with his family up in the Black mountains, and then came to San Jose to go into the butcher business. The old gentleman is hale and hearty at eighty years of age and spends much of his time superintending matters out at the slaughter house, about five miles from

The next in order as to age and height is George J. Carey, who lives at Palo Alto, and is also in the butcher business. He has a little bit of a wife, though he measures six feet four inches. He is thirty-six years of age, and weighs 225 pounds.

Roswell Field, in Chicago Post. A visitor from the East speaks rather enthusiastically of the "Chicago habit" of sitting on the front porch. This is Southern and Western rather than Chicago. So far as the city is concerned it would seem to depend to a large extent on the residence district. It is our impression that nobody iving east of North State street would dare sit on a porch, front or back. Along the Lake Shore drive there is an unwritten law that any woman caught standing at a German and French teacher. Weil-equipped window in her residence shall be fined one week's social displeasure, while the act of sitting on the porch would mean her social disgrace and total ostracism. This is mainly the reason why the drive has so melancholy an aspect and why signs of life are manifest only in the back yards. How much better it is to be lonely and miserable than
